Hi Ellen,

It was good meeting you in person.

Attached are WM's 1 February 2011 deliverables (that I repackaged a bit), including their "[revised storm water contingency plan](#)" submitted in response to our Condition #4 of our 28 January approval for them to re-open Cell E6.

Not knowing your workload, do you have time to please review their revised storm water contingency plan in the next few work days? I think a review in the context of what we requested in our letter balanced by current site realities is appropriate. I'm also attaching the last daily progress report we received from WM that summarizes efforts through their COB yesterday.

Oh, naturally feel free to comment on any other submittals if you wish; I'll be going through all of them.

Thanks!
